# The Japan Steel Factory Kaizen Tour

## ***The Japan Steel Factory Kaizen Tour***

The aim of this Tour is to see, in the genba, how Japanese steel related plants put into practice the principles and methods related to TPM System, Toyota Production System (TPS) and other Japanese excellent methodologies. Hirayama experts and Solving Efeso consultants will help the Tour participants to understand better the Japanese way of working and how to transfer it in a different social and cultural environment.

## ***Why Does "The Japan Steel Kaizen Tour" Work for You?***

The TPM and TPS are considered to be the ultimate production control method, which have made famous in the world the Japanese Manufacturing Sector and led Toyota Motors to be the most competitive motor company globally. Every company in the world today is interested in the way to implement these methods in their systems. We organize "The Japan Steel Kaizen Tour" to see the current status of their birthplace in steel plants and at Toyota Motors. We offer experts' expertise and assistance and, what's more, a factory tour at the world-leading facilities.

## ***Characteristics of "The Japan Steel Kaizen Tour"***

- ✓ Education and assistance by experts with TPM and Toyota Motors Background
- ✓ Documentation about the Japanese way of working and organizing production workplaces
- ✓ Case Examples
- ✓ A Factory Tour

## ***Objectives of "The Japan Steel Kaizen Tour"***

- ✓ To Study the Background and Structure of Japanese Production Systems
- ✓ To Analyze and Solve Problems Participant present
- ✓ To Have a Tour of the World's Highest Level Factory
- ✓ To Learn about Japanese Culture and the Background of its excellent production systems

## Tour Details

**Dates** – January 30 – February 5

It is better for the participants to arrive in Japan on Sunday afternoon in order to delete the jet lag and be fully prepared for the week's study mission. On the return trip, participants will depart Japan on Saturday. It is possible to add some extra days before or after the Tour, for personal reasons. Hirayama staff will help from the logistic standpoint but the expenses will be paid personally.

## Participation Fee

**5.900 € per person**

*The fee includes :*

- Accommodation for six nights, included Internet access
- Six breakfasts, five lunches, six dinners
- Transportation during the tour, including company visits
- Education materials and text books
- Support for the participants in their needs
- Interpreter fee

*The fee excludes :*

- Travel to and from Japan (Airfare)
